Good afternoon / evening, everybody,

I hope you are all well and have had time to relax and recover from all the hard work. I sent the wrong page to our homepage yesterday, so some of you may have been surprised to find Lisa’s handout and no explanation whatsoever. But it might have served as a reminder for all those who still have to mail me theirs. What I meant you to see is this text.

Handouts (below, pages 2-5)

Below you will find four pages from different handouts I received. I want you to compare them, (also looking at the layout, type of script, size etc) and write me a mail telling me which you think needs the least changes if any (i.e. which is the best?) and how the handouts could be improved. Write for A, B, C, D separately. (The handout A / B … is not part of what you should consider, it was added by me, obviously, but the size of the margin is.)

Once I have received all of them, I will send them on to you so that you can use them when writing your W-Seminararbeit. Instead of reading all the books yourself, you might concentrate on passages you need or just cite them as proof. (But you should check page numbers if those are given.)

Quite a few have not yet sent theirs in, have sent something in that was not up to standards or not about what you should send in. Please all those who have not yet sent the handout in, do so in the near future.

Bibliography

Likewise, I have not yet received many, or incomplete ones or hand-written ones that do not really make it possible to judge whether the final version is up to scratch.

There is information for 12 books.

If you have problems opening the files, tell me about it and tell me your address (street, number, post code, city/village) and I will send you photocopies of the respective pages. (Somebody has told me about the problems, but this person might not be the only one.)

Take care, stay healthy,

Ms Dolling
